## PORTSMOUTH WON FIRST PLACE IN LIBERTY LOAN DRIVE

In Per Capita Subscription She Beat Every City and Town in New England

Portsmouth did itself proud in the last Liberty Loan drive, having the highest amount of any city or town in New England. On account of its high standing in the drive Portsmouth will have the honor of naming one of the emergency fleet's ships.

This Portsmouth was No. 1 in the last Liberty Loan drive is due to the efficiency of the committee in charge of the drive, who worked untiringly in the good cause, and the fine spirit shown by our citizens most of whom did much to have the city's subscription go over the top.

Our old historic town has always aided in good causes when solicited and it is again to the credit of our

townspeople that it did so well in the last Liberty Loan campaign.

Now Portsmouth should go over the top in the membership drive for the Red Cross which is going on this week. Every adult, unless in actual straightened circumstances, should not only feel it a duty but a joy to give to the Red Cross, an organization doing such wonderful humanitarian work. All you need is "a heart and a dollar" to become a member of the Red Cross and Portsmouth should have a big membership.

The news of the record made in the Liberty Loan drive came this morning to Chairman Stee from state Chairman Charles W. Tobey.

## SEC. DANIELS SAYS "TWO YEARS BEFORE PEACE COMES"

We Must Have Powerful Navy to Assist in Policing the Seas—Addresses Governors at Annapolis, Md.—President Wilson Remains Indoors—He Has Invited Famous French Ace to Call—He Misses Recreation—Important Conference Planned—He Has Won All Frenchmen -- Theatre Parties Are Planned for Him

(By Associated Press)  
Paris, Dec. 18.—President Wilson and Marshal Foch talked for half an hour last night. The subjects under discussion were mainly in reference to the armistice between the allies and Germany. Mr. Wilson was most favorably impressed as the result of this first extended conversation with the Marshal, according to Marcel Hutin, noted military critic. Marcel Hutin states that it is most probable that the treaty of peace will be signed at Versailles some time about the first of June and that Marshal Foch will lead the allied armies under the Armistice of Triumph in Paris within 15 days after peace is declared.

Paris, Dec. 18.—Another very wet day kept President Wilson indoors except for a ride in a closed motor car. The only conference on his program was one with Gabriel Hanotaux, formerly French Foreign Minister. The President worked late last night after his return from the reception given by Ambassador and Mrs. Sharp

and slept late into this morning. The President is missing the entertainment he customarily gets from attending the theatre and he planning to witness a theatrical performance here soon. A night at the opera is being planned for him but he intends also to witness a variety entertainment. He has expressed a desire to meet Lieut. Rene Bockel, the noted French Ace and the aviator will be brought to the Marais mansion in the near future.

Annapolis, Md., Dec. 18.—At least a year, possibly two years, will be required before the nation can return to normal peace conditions and "we will be fortunate if conditions abroad make demobilization possible at so early a date," said Secretary Daniels here today addressing the conference of State Governors. "The navy," said the Secretary, "must be increased and strengthened to enable the United States to contribute as many units as any other nation to an international police force but," he added, "I look to see the peace conference put an end to competitive big navy building."

The matter of the boy's conduct was gone into quite thoroughly, in connection with other boys in the town, and in lieu of the punishment for the offense with which the boy was charged, he was committed to the State School for Boys at South Portland until he should reach the age of 21 years. He was taken to South Portland today by Deputy Sheriff Boardman and Officer Harry Tobey of Kittery.

As a result of the boy's statements in court, and an investigation by the Deputy Sheriff and the selectmen, the latter board held a meeting and revoked the pool room license issued to McDonald in the Wentworth Block on Government street.

The selectmen discussed some other matters with the court, upon which further action is likely.

## BUY FARM PRODUCTS AT HOME

Wholesale produce dealers and retail marketmen are purchasing weekly from out of state markets, large quantities of beets, carrots, potatoes, pumpkins, squashes, turnips, parsnips and other vegetables for which they are paying good prices. It is the desire of the market bureau to secure a list of farmers having these products for sale, that the bureau may direct the dealers where they can purchase direct from the farmers the kind and grade of vegetables which they are now purchasing outside the state to supply their local demands.

In order for the farmer to secure this trade, it will be necessary for him to grade and pack his products in a uniform manner so the purchaser may be assured of as good and possibly better quality than he is at present securing from other states.

The bureau of markets is prepared to advise the farmer how to grade, pack and market his products in order that he may secure a larger net return from what he produced on the farm. Records show that producers have received only 50c to 65c for which the consumer pays \$1.00.

This method will save the producer and dealer many dollars in transportation charges, jobbers and commission men's profits, and the consumer will also be benefited by being able to secure fresher products and in many cases at a lower cost, if direct marketing methods are used. Farmers having cord wood, hay, apples and other farm products should notify the bureau. Sales lists are published every Wednesday and sent to prospective buyers.

## RECEIVERS NAMED FOR L. A. & W. ROAD

Lewiston, Me., Dec. 17.—A receivership for the Lewiston, Augusta & Waterville Street Railway Company was decreed by Judge John A. Morrill of the Superior Court today. William H. Newell, attorney for the company, and Alfred J. Sweeney, general manager,

were appointed receivers. The court action was taken on petition of A. H. Ford, vice president and general manager of the Cumberland Light & Power Company, which controls the street railway company.

Officials of the street railway said its financial difficulties resulted from excessive cost of operations, difficulty in obtaining material for upkeep, lack of patronage and a recent decision of the War Industries Board granting a wage increase to employees. They said the additional income received by increasing the fare rate from five to seven cents last summer had been more

than offset by a decrease in patronage. The receivers announced their intention of continuing the road in operation.

## BOYLE AND JOHNSON WILL MAKE FAST BOAT

The bout this evening between Finney Boyle of Lowell and Leo Johnson, the colored lightweight of New York, should be a battle well worth seeing. Boyle, who made Woods quit here a few weeks ago, is an aggressive and a two handed boxer and from all accounts he will need both hands when he meets Johnson, who has a fine reputation around New York.

The semi-final bout between Danilo Kramer, who was formerly in the amateur class, having won the National championship, and Tommie Fitzgerald of the Naval Prison should be fast. Fitzgerald is claimed to be a fast boy and very able to care for himself and the men at the prison are confident that he will make Kramer travel.

The preliminary between Willie Green of Boston and John Walsh of Lowell should be fast. Walsh is a good preliminary boy and Green has been fighting preliminaries in Boston for some time.

The Knickerbocker A. C. staged a very fast bout last week and the management is confident that this show will be even better.

## NO RELEASE FOR NAVAL DOCTORS

Washington, Dec. 17.—Captain Lansing today announced that ten per cent of the men of the regular naval force by July 1 next, 150,000 men of the would be discharged at once and that present force would have been released. None will be discharged from certain branches like the radio and hospital corps, which must be maintained at their present strength.

In reply to a question as to the probable date of discharge of physicians in the Navy who enlisted for the war, Captain Lansing said none could be released at present nor in the near future.

## Half a Century Ago

Half a Century Ago every community could be supplied to some extent with locally dressed meat, drawing on live stock raised nearby.

Now two-thirds of the consuming centers, with millions of people, are one to two thousand miles away from the principal live-stock producing sections, which are sparsely settled.

The American meat packing industry of today is the development of the best way to perform a national service.

The function of providing meat had to develop accordingly. Those men who first grasped the elements of the changing problem created the best facilities to meet it—large packing plants and branch-houses at strategic points, refrigerating equipment (including cars), car routes, trained organization, profitable outlets for former waste—which became the natural, inevitable channels for the vast flow of meat across the country.

If there were a better way to perform this necessary service, American ingenuity and enterprise would have discovered it, and others would now be using it.

During 1918, Swift & Company has earned a profit on meats (and meat by-products) of less than 2½ cents per dollar of sales—too small a profit to have any appreciable effect on prices.

### A Foolish Agitation Squelched.

The Massachusetts politicians who have taken up the cases of a few military officers from that state who were recently relieved of their commands in France are not succeeding very well in their enterprise. There has been a great deal of whispering and gossiping about the "injustice" to these officers, and action taken by Senator Weeks of Massachusetts has called out a reply from Secretary of War Baker which throws new light on the matter and makes it apparent that the officers have not been so badly misused as has been represented in circles that are not over-friendly to the Administration.

Senator Weeks recently wrote to Secretary Baker asking for the records of the removed officers and for certain other information pertaining to army affairs, and was promptly informed by the secretary that the information would not be forthcoming. Mr. Weeks was informed that General Pershing is wholly responsible for the disposition of subordinate commanders, and that no detailed record of specific reasons for his judgment is either given by him or asked by the Department.

Secretary Baker further explained that under the Articles of War any officer or soldier who feels that he has been wronged by his commanding officer may complain to the commanding general with the assurance that his case will be investigated and that he will receive justice. Secretary Baker further said that the War Department had received from General Pershing nothing to indicate that any such complaints had been made.

Governor McCall of Massachusetts was recently in Washington and called at the War Department to see what he could learn and do with reference to the cases of the deposed officers, but it is evident that he received little satisfaction. When he came out he told a correspondent that "The War Department carries out the recommendations of General Pershing as to the appointment or relief of commanding officers, and it was impressed upon me that very often the removal of officers from their former commands is in no sense derogatory to their standing as officers."

It would have been better if the officials and others who have been agitating this matter had understood these facts at the start and kept their hands off from that which, to speak plainly, was none of their business.

The agitation, however, has not been without value. It has taught a few dignitaries and the public generally, particularly in Massachusetts, that the War Department is able to handle its business without the aid of politicians. And it is fortunate that this is so. If the removal of military officers was something that had to be satisfactorily explained to the political bosses of the states from which the officers came, the military arm of the government would have a hard time handling an army in the field.

The politicians of this country are next to supreme, but it will be a relief to the public to know that there are bounds beyond which even they "shall not pass."

Increasing attendance at the evening school is a healthful sign. Such an institution is of great advantage to foreigners and others desiring to increase their educational equipment, and it is to be hoped that the present enthusiasm will be kept up throughout the term.

President Wilson's address to the American troops in France is awaited with exceptional interest, not only in military circles but throughout Europe and the United States. In a certain sense it will be the "opening gun" of the Peace Conference.

The annual ball of the Elks next month will be a social event of exceptional interest in this city. Preparations are being made on elaborate scale and nothing which can contribute to the success of such an occasion will be omitted.

The health authorities of Boston are to see to it that Thanksgiving turkeys left over for the Christmas trade are properly labeled and not sold as "strictly fresh." Are there any other cities in which similar action would be in order?

It is announced that the famous Krupp Gun Works are hereafter to turn out implements of peace. It would have been better for Germany and the world if this change had been made years ago.

The troops flowing through Camp Devens now are on their way home instead of on the way to France. And the change is highly gratifying both to the boys and their relatives.

Thus far the recount has resulted in nothing to disturb the equanimity of Senator Moses, whose vote is gradually growing.

## HOW THEIR FAVORITE PAPER ARRIVED

## NAVY YARD NOTES

**Long Cruise for Vulcan**  
The U. S. S. Vulcan left the Charles town yard on Tuesday for a long cruise. She will make the Asiatic station visiting China and other countries including the Philippines.

**Reports of An Increase**  
Reports have it in Boston that another increase in pay is on the way for civilian employes of the Charlestown yard.

**6,912 at Newport**  
Through the arrival of more men from the battleship New Jersey, the number at the Newport Naval Training Station has jumped to 6,912.

**Carried First Patient Today**  
The special designed auto ambulance for the yard dispensary was put in commission today and is the last word in such vehicles. It was constructed according to the plans and ideas of Dr. P. M. Purling, medical officer of the yard and the government certainly has well invested its money.

The interior is painted in white enamel, while the outside is decorated with a neat blue and following lettering: "Medical Department, United States Navy." It is equipped with everything necessary for the protection of the sick and injured, especially in stormy weather. It carried its first passenger today in the removal of a patient from one of the ships to the station hospital.

Fred C. Moulton of Portsmouth has been assigned to the ambulance as chauffeur.

**Will Try It Saturday**

Another attempt will probably be made to launch the new submarine S-3 from the ways in the shipyard on Saturday. Although the industrial officers went through their first experience on Tuesday, such experience is nothing new to the builders at Bath and Fore River yards where the inferior tallow, made so by way saying, has several times interfered with sending newly built ships into the water.

**Getting Ready for Holidays**

The officers and men of the ships at the yard who will not be on leave during the holidays are preparing for special menus, amusement and decorations for the occasion.

**Few Helpers and Firemen**

Twelve general helpers, 1 shipfitter's helper, 1 fireman, 1 boy, were required by the Industrial Department during the past two days.

**Two More Features**

"Clit Picci," an old timer who did his bit with Lew Dockstader will be one of the stars of the yard minstrel show as well as Miss Marie Hill of Haverhill, Mass., a singer of much merit who will appear in solo work.

**Back to Private Life**

Rear Admiral John A. Rodgers, who returned from the retired list to command the naval unit of the Harvard students army training corps, yesterday was directed to return to the retired list as soon as the units under his command are demobilized. He will go back to his estate at Havre de Grace, Md.

**Attended Funeral**

The following from the Industrial Department represented the management at the funeral services of the late foreman, Charles A. Wendell, held this afternoon. Comdr. Ryden, ship superintendent, Lieut. Comdr. Boyd and Lieut. Plonka. Several yard foremen were also in attendance besides many of the workmen from the spar shop, where the deceased was in charge for years.

**2800 Men Gone**

Rear Admiral Spencer S. Wood, commanding the 1st naval district, announced yesterday that 2800 men in this district have been discharged and of these about 2000 have been students in the various college naval units. Orders that discharges are the first to be made out, under orders from Washington and Admiral Wood ex-

pects that all such men will have been discharged by the end of the present week. The admiral said that the discharge work is proceeding rapidly and that clerks and others are working night and day to facilitate the work.

## GLOOMY REPORTS ON RUSSIAN SITUATION.

Washington, Dec. 18.—Gloomy reports of the situation in Russia, particularly in Petrograd, continue to reach the state department. A dispatch today announced that the Soviet government had restricted the influx of hungry and destitute prisoners returning from German and Austrian prison camps without officers or guards.

The condition of the middle classes in Petrograd is said to be extremely bad and great numbers are dying daily of starvation. No fuel is available and the people are obliged to keep to their beds day and night. No supplies have reached the city for more than two weeks.

The Bolshevik section is reported gaining numerically, because it controls the distribution of food. There is increasing disorder in the administration of affairs, according to these advices, and such authority as exists has no control of subordinate officers. Many Scandinavian fugitives, escaping from Bolshevik terror, are arriving in Sweden. The state department has advices from Norway that the Norwegian legation, which had charge of American interests at Petrograd left the city Dec. 13 and is expected daily at Christiania.

## JAPAN TO DELIVER FIVE VESSELS TO U. S.

Seattle, Wash., Dec. 18.—Five Japanese steel freighters of from 5,000 to 10,000 tons capacity each, will be delivered to the United States shipping board at Seattle during January by the Trans-Oceanic company, according to advices received here today. The vessels are the product of the Kawasaki shipyards at Kobe, fabricated of steel furnished by the American government under the war-time agreement of supplying steel in return for the completed tonnage.

If you want to get the news first you only have to read Portsmouth's popular daily, The Herald.

## ANOTHER RECOUNT FOR CLAREMONT HAS BEEN ORDERED

Secretary of State Edwin C. Dean has received a petition for an inspection of the votes cast for Representative to the Legislature from Claremont. The United States Senatorial recount showed a plurality of 97 votes in Claremont in favor of the Democrats, resulting from a mixup in the straight ballot. If this held good in the representative vote two Democrats would displace the two low Republicans.

Secretary Dean has named Friday, Jan. 3, as the date for the recount. This would enable the Republicans to take their seats at the opening of the session on Jan. 1.

## WANT \$4,000 FOR AID OF CHILDREN IN YORK COUNTY

The York County Childrens Aid society will ask the coming legislature for an appropriation of \$2,000 for each of the years 1919 and 1920, according to a statement of estimated expenditures and income, which was filed at the office of the state auditor today. The amount asked for being divided as follows: Board for children, \$1,200; clothing for children, \$700; medical treatment, \$100. The average board of the children is \$3 per week.

## PROF. HETZEL JOINS HARBOR ASSOCIATION.

Mr. H. D. Hetzel, President of the New Hampshire College, has joined the Atlantic Deepwaterway Association and will help to get the Waterway Convention in New Hampshire in 1920.

Friends of Irish Freedom held the greatest meeting of the year on last Sunday, the last day of Self-Determination Week for Ireland. Talks were given by William P. Hussey, Prof. M. J. "And finally, because America is and has been the determining factor in World affairs;

"Portsmouth friends of Irish freedom raise their voices with all true lovers of freedom and justice in asking you to intercede with the constituted authorities of Great Britain to the end that Ireland may have that form of government determined upon by a plebiscite of the adult population of the country.

### DEMOCRAT WINS IN DOVER INSPECTION

Concord, Dec. 18.—George M. Randall, Democrat, who was tied with Eugene H. Foss in the vote for representatives in ward 2, Dover, made a net gain of two over Foss in an inspection of the ballots by Deputy Secretary of State Robert Pillsbury yesterday. Each candidate had 261 according to the election returns and Randall gained three votes in the recount, while Foss gained one. There were changes in all of the returns, McFadden losing one, Smart and Cronin gaining three each and O'Sell one. Cronin and O'Sell, Democrats, were both elected, and will serve with Randall, if the count of the secretary of state is accepted by the legislature.

## WILL BE TRIED IN BOSTON COURTS

Earl and Harold Stacy, two lads from Bath, Me., who held up the car on the Boston train, will probably be prosecuted in the Boston courts. They were arraigned before Judge Gupilli in the police court on Tuesday on the charge of drunkenness as they were arrested and the guns taken away from them while the train was still in Massachusetts.

It appeared that the two boys went to Boston on Monday afternoon and purchased five quarts of whiskey, two revolvers, which they proceeded to load, and then proceeded to drink enough whiskey to get good and drunk. Judge Gupilli tried to get from them where they were sold whiskey at their age, but they were indefinite about the location of the saloons and did not seem to remember much about the waving of guns on the passenger train. They are mild mannered and not tough-looking lads and after some consideration Judge Gupilli reserved decision until something of the family history in Bath could be secured and also to see if the Boston and Maine railroad wished to prosecute.

Tuesday evening two of the Boston and Maine police came here and they will ask that the boys be taken back to Boston for trial, and also to locate where they were able to buy liquor.

## SUPPLIED FOOD TO GERMAN SHIPS

San Francisco, Dec. 18.—Plans of guilty to an alleged conspiracy to supply German warships at sea through the chartering of vessels here, in violation of the neutrality laws, were entered here today by four shipping men, two shipping firms and the chairman of the former German consulate here. Sentence was set for Saturday.

The shipping men were Robert H. Swayne, C. D. Bunker, Thomas W. Anderson and Joseph H. Hey. The firms were C. D. Bunker & Co., and the Northern and Southern Steamship company. The consular agent was Heinrich Kaufman.

The indictment charged the defendants chartered the steamers Sacramento, Mazatlan and Maverick, and the schooner Annie Larsen to supply the German Pacific fleet with provisions.

All of the defendants contended that they were entirely within their rights and that under international law they were privileged to the "freedom of the seas," in trading with a belligerent.

## PEACE LEAGUE IS NECESSARY DECLARES TAFT

Declaring that America entered the war to secure permanent peace and that permanent peace is impossible without a League of Nations to enforce peace, former President William H. Taft held an audience of a thousand through a most interesting address at the Franklin street Congregational church, Manchester, Monday evening.

Outlining America's purpose in the war as, first, the maintaining of this country's rights on the seas and, when fully in the war, as an attempt to win a cause for world-wide good, he illustrated with his usual clever phrasing and flashes of wit, the various phases of his subject.

Hearty applause frequently showed how well he was being followed in his arguments. After the lecture was finished, renewed and continued cheering testified to the admiration Manchester audiences always feel for the most genial of leading Americans.

A man at Conyngham, Penn., who failed to take any bonds of the Fourth Liberty Loan, has received through the mail an Iron Cross for "distinguished service" in connection with the drive. On the cross are the words "Gott! Heil! Uns!" ("God Help Us!").

## HAVE YOU ANSWERED THE ROLL CALL YET?

The annual Christmas roll call of the Red Cross is progressing finely in this city and the various teams are making every effort to make it the greatest enrollment ever. Last year this city was second in the state and this year it is hoped to make it first in percent and to do this everybody should lend a hand.

The team captains and executive committee met last evening at a supper and talked over the work of the first day of the men's team drive and there were very favorable reports. There were no hundred per cent reported although many expect that by tonight they will have several business houses ready for the hundred per cent flag. These flags are given when a firm or a household has every person in their employ or in the house a member of the Red Cross. They are principally for the business places and it should be the object of every business place to see that they have the hundred per cent flag.

The committee are very anxious that everybody who has joined should wear their button. It will give the workers a chance to see how many have already enrolled and at the same time allow them to more freely approach those who do not wear a button. One dollar is all that is asked for a year's membership in this great world's organization, and be it understood that 25 cents out of every dollar is used for actual relief, only two per cent being used for expenses, clerical, or the maintenance of the workers, only a very few of whom are paid more than their expenses and many do not even accept this.

The women's committee who have the residential part of the city are making good headway; and householders should not keep them waiting at the door. It is cold work at the best and prompt response to the doorbell makes a great difference in the amount of work that they are able to do. Remember that they are working for a good cause and give them every courtesy.

It is the hope of the National Council that by the membership dues alone they will be able to carry on this great work that is being done and must be carried on for months at least. A universal membership in the women and the National Council would rather have 50,000,000 members at \$1 per year than receive the same amount of money from a fractional part of the people. It makes it more representative of this great nation. Join and wear your button.

## COLD GONE! HEAD AND NOSE CLEAR

First dose of "Pape's Cold Compound" relieves all grippe misery.

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

## TRANS-ATLANTIC FLIGHT JUNE 15

New York, Dec. 17.—Capt. Benjamin S. Lipsner, who resigned recently as superintendent of the Government aerial mail service, announced recently that, backed by a group of wealthy men he will establish next year the first transatlantic express line in this country.

Capt. Lipsner said he was not at liberty to announce proposed routes, but that the first line would be put into operation on May 15, 1919. The service, he said, would be started with six planes, each with a speed of 110 miles an hour and a capacity of 40 passengers or an equivalent weight in express.

Equipment of passenger planes, he said, will include a wireless telephone system and "all latest scientific appliances," and the rates "will be within the reach of all," he added.

Capt. Lipsner also said that, unless someone else has already done so, on June 15 he will make the first transatlantic flight, selecting the same route followed by the transport George Washington in taking President Wilson to France. He added that a "sea-going plane" to be used in the flight is now being constructed.

## GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair becomes charming, wavy lustrous and thick in few moments.

Every bit of dandruff disappears and hair stops coming out.

For a few cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really now hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

## FINANCIAL UNION IS NOW PLANNED

Paris, Dec. 17.—The French government is considering a bill proposed by Deputy Jacques Stern, establishing among the allies an international financial union. The bill probably will be presented before the chamber of deputies Dec. 24. The purpose of this union would be to distribute the expenses of the war among the nations on the basis of populations and power to contribute. The proposition is supported by 100 delegates of all parties. It is understood that a similar plan is under consideration by the British government, but no definite steps have as yet been taken in London.

It is estimated that the war expenses of the allies total 424,000,000,000 francs. Annual budgets at 6 per cent per cent aggregated 870,000,000,000 francs. Annual budgets at per cent with one half of one per cent premium for amortization would total 42,000,000,000 francs.

To avoid international bankruptcy, it is declared that such an association is necessary to float an international loan, estimated at 513,000,000,000 francs to be distributed on a basis of population and production. Each state would guarantee its proportion from customs and other revenues.

All exchange questions, freight rates and prices of raw material would be handled through the centralized agency of the association. Provision is made for the admission of neutral states. Even the Central Powers, upon terms prescribed by the allies, may join, thus re-establishing international credit, which is held to be an essential condition to the economic development of the world.

M. Stern the author of the bill, hopes that the peace conference will adopt the plan at least in principle, leaving a special commission to arrange the details.

### PRECIOUS TIME WASTED

You can somehow get other dollars, but the time wasted is gone forever. The best is none too good in music.

### CHARMING FURNITURE FOR THE HOME

Are you planning to buy a new piece of furniture for some room of your own home, or are you looking for a gift which would be a delight to the owner? If so, you will find in this store a variety of attractive pieces of furniture which may help you to the solution of your problem.

If selecting separate pieces for your own house, it would be wiser for you to consider the type of furniture that is already in the room to which the new piece will be added. Furniture may be good as to quality, but unless it fits the environment of which it is to be a part, it cannot in a broad sense of the word, be good.

If it is a gift, try to make the piece of furniture you select express the individuality of the owner, if possible. If you could know the type of furniture already in the house, your selection will of course be so much easier, but if this is impossible it would be better to select perhaps something which would be apt to harmonize with any style. Let Margeson Brothers help you.

### NEWLYWEDS SURPRISED BY FRIENDS

On Monday evening the employees of the coppermith shop at the navy yard gathered at the home of Mr. and Mrs. Ray Dixon on Union street to surprise Mr. and Mrs. Arthur Brown, the former being one of their most popular shopmates, who had recently joined the army of benefactors. The affair was a complete surprise to Mr. and Mrs. Brown, but having the best idea of the coming of their guests with their arrival at the door. After cordial greetings were exchanged a very pleasant evening was passed, vocal and instrumental music interspersed with monologues and buck and wing dancing, adding to the pleasures of the occasion. Miss Elsie Dixon presided at the piano and the Copper Shop Quartet sang many old and beautiful melodies. Everyone assisted in making it an evening of mirth and song, the chorus-singing being especially enjoyable.

During the evening Mr. and Mrs. Brown were presented by George O. Lane, in behalf of the company assembled, with a beautiful reading table. Mr. and Mrs. Brown, after recovering from their surprise, responded feelingly in a few well chosen words. After refreshments were served congratulations were in order and at a late hour the guests returned to their homes wishing Mr. and Mrs. Brown many years of happy and prosperous wedded bliss.

### THE HERALD HEARS

That the lack of letters from the boys overseas, is causing parents to be worried.

That sailors are credited with pulling off some funny stunts but the one in a local restaurant one morning this week has them all beat.

That four of the bluejackets came in before six o'clock for a lunch.

That after sitting at the table a while one of them got his eye on a well filled sugar bowl.

That it was the first day a bowl with sugar had been on the table since the food administration issued war orders.

That one of the sailors was so delighted that he grabbed the bowl and threw it at the man at the opposite side of the table.

That the bowl landed up against his forehead but didn't even crack.

That the sailor who stopped the bowl says his comrades can rejoice all they wish over the return of the full bowl but he doesn't care to have any text of crockery ware made on his dome.

That Walter Gallager of Portland separated himself from \$5. for being a good fellow.

That two passengers on a train at Saco induced him to help them carry a heavy dress suit case from the train.

That Gallager was just crossing the railroad tracks when the sheriff nailed him with the baggage which was in question.

That the court took \$5. and told

Gallager not to be so accommodating in the future with strangers.

That junk men say the market has been shot to pieces.

That the Shattuck bowlers appear to be anxious to go up against some strong Portsmouth team, is there any reason why they cannot be accommodated?

That Senator Hollis of New Hampshire and President Wilson met in Paris on Tuesday.

That juvenile thieves appear to be more than active of late.

That the recruit in Ward Five had been called off, is the latest in political circles.

That it's time to paste a few New Year resolutions in your hat.

That another real estate deal involving Congress street property is said to have been made.

That the navy yard workmen have nothing to be ashamed of in the submarine S-3.

### MINSTREL SHOW TO MAKE A BIG HIT

The theatrical show to be given by the employees of the Portsmouth navy yard on Thursday and Friday evenings of this week at the Portsmouth theatre for the benefit of the Red Cross, will be an event well worthy of attention and is sure to make a decided hit. A large part of the house has been sold for the opening night and already over half of the house has been sold out for the second night.

The program is sure to make a decided hit as some extra good talent is to take part and as the object of the show is for a splendid cause the theatre should be filled to the doors on both nights.

### WORKMAN NO. 2184 AT SHATTUCK YARD STARTS SOMETHING

Arguments on Mast Splicing Are Going Thick and Fast.

Arguments are flying fast and plenty at the L. H. Shattuck shipyard and everybody with mechanical knowledge in wooden shipbuilding has a chance to get in the debate.

The wholesale argument which is credited with keeping more than one man awake at night, was launched by workman number 2184. He claims a mast broken off on the deck of a ship can be spliced and not shortened and that he knows how to do it.

Other mechanics who have followed shipbuilding for years say it is impossible, but No. 2184 says it can be done and that the big stick will have the same length after being made whole again. Whatever No. 2184 has up his sleeve, he has started something among the Shattuck men and the gang are anxiously waiting to see where he gets off on fixing up the big stick without loss of material.
